Declaration about using electroluminescence (EL) system

Dear Valued Customer,

Hereby I declare that all of photovoltaic modules of model type HIT-NxxxSE10 and VBHNxxxSE10 (xxx = 230, 235, 236, 240) manufactured by SANYO Hungary were inspected in the production line by using electroluminescence camera system. The scope of the inspection are all destructive and visual defects of photovoltaic solar cells which might have effect on long time reliability and performance of the manufactured photovoltaic module.

Sincerely yours,

.....
